FISHER® NATION doesn’t stand to the side waiting for someone else to clear a path. They go where others haven’t. And the way we see it, it’s our job to keep making the equipment that keeps these guys plowing forward.

For more than 70 years we’ve been building plows and spreaders for way-makers.
STANDARD FEATURES FOR ALL SNOWPLOWS

**MINUTE MOUNT® 2 SYSTEM**
The FISHER® Minute Mount 2 System has been engineered for superior safety, durability and convenience. The mechanical nature of its design means that there are no sensitive electronics that could fail and prevent you from attaching or removing your plow.

The vehicle mounts and lower gear are built tough and flare both vertically and horizontally to help guide the plow into place during attachment. Each vehicle mount kit has been engineered for an exact fit* and is certified to meet all applicable Federal and Canadian Motor Vehicle Safety Standards.*

*Except for the Universal Mount kit

**MINUTE MOUNT® 2 SYSTEM**
The FISHER® Minute Mount 2 System has been engineered for superior safety, durability and convenience. The mechanical nature of its design means that there are no sensitive electronics that could fail and prevent you from attaching or removing your plow.

The vehicle mounts and lower gear are built tough and flare both vertically and horizontally to help guide the plow into place during attachment. Each vehicle mount kit has been engineered for an exact fit* and is certified to meet all applicable Federal and Canadian Motor Vehicle Safety Standards.*

*Except for the Universal Mount kit

**FLEET FLEX ELECTRICAL SYSTEM**
Fisher Engineering dedicates countless hours researching and developing direct fit electrical systems to ensure your vehicle and plow are safe, reliable and easy to operate.

The FLEET FLEX Electrical System has been created to minimize the intrusion to your vehicle during installation and also provide simple, reliable connections between your vehicle and plow.

The additional benefit of the FLEET FLEX system is that it is completely universal to all current FISHER snowplows. This means that plow fleets are able to optimize their operations and use any plow on any vehicle.

*Except for the Universal Mount kit

**CHAIN-LIFT DESIGN**
The FISHER chain-lift design offers a wide range of performance and reliability advantages over a direct-lift system, such as clean scraping, higher stacking and easy recovery in the rare event of a failure.

*Excludes HS plow and TRAILBLAZER™ UTV plows

**RELIABLE HYDRAULICS**
Designed and manufactured exclusively at Fisher Engineering ensures the highest standards of performance, quality and reliability, giving you a plow that is fast, responsive and built to last. All critical hydraulic components are fully enclosed for protection from the elements.

*Excludes HS plow and TRAILBLAZER™ UTV plows

**SECURITY GUARD™ ANTI-THEFT SYSTEM**
This exclusive anti-theft system is a safe and secure way to electronically lock your snowplow whenever it is detached from your truck.

By creating a link between your snowplow and control, your plow will automatically unlock once it is connected to your vehicle. A backup code is also programmable to allow other vehicles authorized use.

**UNIVERSAL CONTROL OPTIONS**
Choose between the ergonomic Fish-Stik® hand-held control or the dash-mounted joystick control. Both feature automatic shutoff, backlit buttons for night operation, and LED lights which indicate “power” and “float” modes. Additional features include programmable “soft-stop”, “one-touch” float, built-in SECURITY GUARD Anti-Theft System and plug-in connector for easy removal.

**FLEET FLEX ELECTRICAL SYSTEM**
Fisher Engineering dedicates countless hours researching and developing direct fit electrical systems to ensure your vehicle and plow are safe, reliable and easy to operate.

The FLEET FLEX Electrical System has been created to minimize the intrusion to your vehicle during installation and also provide simple, reliable connections between your vehicle and plow.

The additional benefit of the FLEET FLEX system is that it is completely universal to all current FISHER snowplows. This means that plow fleets are able to optimize their operations and use any plow on any vehicle.

*Excludes HS plow and TRAILBLAZER™ UTV plows

**INTENSIFIRE™ DUAL-HALOGEN HEADLAMPS**
Standard on all new FISHER® truck plows, the INTENSIFIRE dual-halogen headlamps feature separate cavities for the low-beam and high-beam lamps. Reflectors are designed specifically for each mode, so they light up the road with brighter performance and greater reach.

*Excludes TRAILBLAZER™ UTV plows

**STORM GUARD™ BAKED-ON POWDER COAT**
The industry’s best protection against wear and rust, the STORM GUARD baked-on powder coat with epoxy primer is standard on all FISHER snowplows.

**SECURITY GUARD™ ANTI-THEFT SYSTEM**
This exclusive anti-theft system is a safe and secure way to electronically lock your snowplow whenever it is detached from your truck.

By creating a link between your snowplow and control, your plow will automatically unlock once it is connected to your vehicle. A backup code is also programmable to allow other vehicles authorized use.

**UNIVERSAL CONTROL OPTIONS**
Choose between the ergonomic Fish-Stik® hand-held control or the dash-mounted joystick control. Both feature automatic shutoff, backlit buttons for night operation, and LED lights which indicate “power” and “float” modes. Additional features include programmable “soft-stop”, “one-touch” float, built-in SECURITY GUARD Anti-Theft System and plug-in connector for easy removal.

**STORM GUARD™ BAKED-ON POWDER COAT**
The industry’s best protection against wear and rust, the STORM GUARD baked-on powder coat with epoxy primer is standard on all FISHER snowplows.

**STORM GUARD™ BAKED-ON POWDER COAT**
The industry’s best protection against wear and rust, the STORM GUARD baked-on powder coat with epoxy primer is standard on all FISHER snowplows.

**PRE-PUNCHED BLADES FOR ACCESSORIES**
PLOW blades are pre-punched for easy installation of accessories, providing a custom fit. The pre-punched holes also prevent cracking of the powder coat.

*Excludes SD Series snowplow

**STORM GUARD™ BAKED-ON POWDER COAT**
The industry’s best protection against wear and rust, the STORM GUARD baked-on powder coat with epoxy primer is standard on all FISHER snowplows.

**STORM GUARD™ BAKED-ON POWDER COAT**
The industry’s best protection against wear and rust, the STORM GUARD baked-on powder coat with epoxy primer is standard on all FISHER snowplows.

PLOW blades are pre-punched for easy installation of accessories, providing a custom fit. The pre-punched holes also prevent cracking of the powder coat.

*Excludes SD Series snowplow

**INTENSIFIRE™ DUAL-HALOGEN HEADLAMPS**
Standard on all new FISHER® truck plows, the INTENSIFIRE dual-halogen headlamps feature separate cavities for the low-beam and high-beam lamps. Reflectors are designed specifically for each mode, so they light up the road with brighter performance and greater reach.

*Excludes TRAILBLAZER™ UTV plows

**STORM GUARD™ BAKED-ON POWDER COAT**
The industry’s best protection against wear and rust, the STORM GUARD baked-on powder coat with epoxy primer is standard on all FISHER snowplows.
TOUGHER THAN THE ELEMENTS.

The FISHER® XV2™ v-plow comes equipped with extreme flared wings and double-acting cylinders to easily handle anything thrown in its path. Plus, it’s qualified for Class 6 vehicles, so it’s not just hard-working, it’s versatile too.

Steel Center Pin
A 1½"-diameter, heat-treated steel center pin resides within a three-connection-point hinge for added strength and rigidity.

Lift Ram
The XV2 plow’s lift ram cylinder is 1¾" in diameter, providing more lifting power and durability while out on the job.

Center Snow Control
For exceptional snow containment in all positions, the XV2 plow’s lift ram has a center deflector designed to prevent snow from going over the top of the blade, and the formed cutting edges reduce trailing snow.

Standard Cutting Edge
The standard, 6", high-carbon steel cutting edge provides increased wear resistance and a clean scrape.

70-Degree Attack Angle
The XV2 features an aggressive 70-degree attack angle for enhanced scraping and back dragging, making it ideal for asphalt or paved surfaces, and for scraping up ice and hard packed snow.

Extreme Flared Wings
The XV2™ v-plow features flared wings that soar from a 31" center height up to 39" at the outer edge (on 9’ 6" models) to bust through big drifts, carry more snow and windrow wide-open areas.

Standard InstaLock Double-Acting Cylinders
InstaLock double-acting cylinders lock the wings together to use the v-plow in straight blade mode with single button control. Double-acting cylinders also hold the wings firmly in place for clean, efficient back dragging.

Trip-Edge Design
The industry-leading FISHER® trip-edge design protects you and your equipment. Only the bottom edge trips, so the blade stays upright and plowed snow stays in front of the blade. Compression-type springs never need to be adjusted or wear out.

Exclusive X-Bracing Design
Constructed from four vertical ribs and eight x-bracing ribs to reinforce the blade for structural integrity and torsional strength.

T-Frame Design
Superior T-Frame design provides optimum strength-to-weight ratio. The blade pitch adjustment feature allows for adjustment of the blade pitch for more even edge wear.

MOLDBOARD AVAILABILITY
Stainless steel: 7’ 6", 8’ 6" and 9’ 6" widths
Powder coated steel: 8’ 6" and 9’ 6" widths

TAKE IT TO THE NEXT LEVEL.

With the ability to position the plow in V, straight or scoop mode, plowing snow with the XtremeV™ v-plow can take you to the next level. Whether busting through a long driveway or clearing a parking lot full of cars, the XtremeV v-plow makes quick work of brutal winter conditions.

**Standard InstaLock Double-Acting Cylinders**
InstaLock double-acting cylinders lock the wings together to use the v-plow in straight blade mode with single button control. Double-acting cylinders also hold the wings firmly in place for clean, efficient back dragging.

**Trip-Edge Design**
The industry-leading FISHER® trip-edge design protects you and your equipment. Only the bottom edge trips, so the blade stays upright and plowed snow stays in front of the blade. Compression-type springs never need to be adjusted or wear out.

**ACCESSORIES**

- Rubber Deflector
- Wing Extensions
- Shoe Kit
- Curb Wear Kit
- Blade Stop Kit
- 1/2" and 3/8" Steel Cutting Edges
- Back Drag Edge Kit*

*Not compatible with shoe kits on v-plows
When winter attacks, fight back in a big way. The next generation of the XLS™ expandable wing snowplows delivers a whole new level of versatility, efficiency and performance. The only expandable plow with independent wing control and trip-edge protection, the XLS plows now come with flared wings and are available in two blade sizes: 8’–10’ and 8’ 6”–11’. They are built bigger and stronger to carry more snow and accommodate larger trucks. Maximize handling and capacity with unmatched windrowing productivity so you can continue doing what you do even more efficiently.

**Trip-Edge Design**
The XLS™ snowplow is the only expandable plow with a trip-edge. The FISHER® industry-leading trip-edge design protects you and your equipment. Only the bottom edge trips, so the blade stays upright and plowed snow stays in front of the blade. Compression-type springs never need to be adjusted or wear out.

**Standard Cutting Edges**
The standard 6” high-carbon steel cutting edge provides increased wear resistance and a clean scrape. The XLS wings feature adjustable, poly wing cutting edges to provide added trip protection.

**Flared Wings for Efficiency**
The XLS plows feature flared wings as tall as 36” to maximize snowplowing efficiency and aggressively cast snow further while windrowing. The wings can be controlled independently for scoop, straight and windrowing configurations.

**Structural Reinforcement**
A structurally reinforced slide box constructed of 3/16” steel, 10 massive ribs and a heavy-duty torque tube provide rigidity and strength to the wings and the blade to eliminate buckling under heavy loads.

**Moldboard Availability**
- Powder coated or stainless steel:
  - 8’ extends to 10’ in straight and 8’ 10” in scoop.
  - 8’ 6” extends to 11’ in straight and 9’ 10” in scoop.

**Four Plows in One**

- **Retracted Straight Blade**
  Perfect for transport and for narrow-access areas, such as drive-through lanes or tight windrowing areas.

- **Expanded Straight Blade**
  Take wider passes in larger, wide-open spaces.

- **Windrow Left / Right**
  For unmatched productivity, angle the leading wing and use the full blade with minimal spill off and reduced cleanup time.

- **Scoop**
  Angle both wings forward to carry more snow around corners with minimal spill-off.

**Accessories**
- Rubber Deflector | Shoe Kit | 5/8” Steel Cutting Edge
- Carbide Cutting Edge | Back Drag Edge Kit

*All product features and specifications listed in this brochure apply to XLS snowplows with serial numbers beginning with 180210 and higher. See pages 4-5 for all standard snowplow features.

*Not compatible with shoe kits on the XLS plow
FISHER® FULL-LINE SNOWPLOWS + ACCESSORIES

**Plow Blade Construction**
The HC snowplow features a 34”-tall, 11-gauge, powder coated steel blade that is available in 9’ and 10’ widths. The aggressive attack angle and blade overhang promote a clean scrape and snow rolling.

**Structural Reinforcement**
The HC snowplow features massive vertical ribs, gussets and pins, all reinforced by Fisher Engineering’s proven A-frame design. This design is built strong to withstand even the heaviest snow for heavy-duty commercial and municipal vehicle applications.

**Standard Cutting Edge and Curb Guards**
Both the 9’ and 10’ models come standard with abrasion-resistant curb guards and a 6”, top-punched, high-carbon steel cutting edge, increasing wear resistance and providing a clean scrape.

**Oscillating A-Frame**
With its oscillating A-frame, the HC snowplow pivots from side to side allowing the blade to follow the contours of the plowing surface for improved scraping and even cutting edge wear.

**Trip-Edge Design**
The industry-leading FISHER® trip-edge design protects you and your equipment. Only the bottom edge trips, so the blade stays upright and plowed snow stays in front of the blade. Compression-type springs never need to be adjusted or wear out.

**Class 4 Through 6 Trucks**
The HC snowplow was engineered specifically to optimize the capabilities of medium duty trucks.

**MOLDBOARD AVAILABILITY**
Powder coated steel: 9’ and 10’ widths

**ACCESSORIES**
- Rubber Deflectors
- SnoFoil® Steel Deflector
- Shoe Kits – Standard Wear and Extreme Wear
- 5/8” Steel Cutting Edge
- Carbide Cutting Edge
- Blade Stop Kit

Make short work of big storms. The 9’ and 10’ FISHER® HC heavy contractor snowplows are built for big trucks and designed to move large amounts of snow. So no matter what contractors or municipal plow drivers get thrown their way, they can move the snow, then move on to the next parking lot or street.
STRAIGHT AND TO THE POINT.

The FISHER® HDX™ stainless steel snowplow is perfect for commercial contractors and anyone else looking to push back against nature. With its adjustable attack angle and oscillating A-frame, the HDX snowplow delivers a clean scrape. And with our industry-leading trip-edge design, obstacles may get in your way, but they won’t ever stop you.

Adjustable Attack Angle
Customize the blade’s angle of attack to 55°, 65° or 75° to accommodate different plowing surfaces, weather conditions or operator preferences. Its boxed-in quadrant design features three attack-angle holes for easy adjustment.*

Oscillating A-Frame
With its oscillating A-frame, the HDX™ snowplow pivots from side to side allowing the blade to follow the contours of the plowing surface for improved scraping and even cutting edge wear.

Structural Reinforcement
The HDX snowplow is constructed with a total of eight vertical ribs welded into a rigid framework. The two inner ribs and base angle have additional reinforcement which provides increased structural support when attacking winter’s worst.

Stainless Steel Moldboard
The 29”-tall moldboard is made of corrosion-resistant stainless steel for the ultimate in durability and performance.

Trip-Edge Design
The industry-leading FISHER® trip-edge design protects you and your equipment. Only the bottom edge trips, so the blade stays upright and plowed snow stays in front of the blade. Compression-type springs never need to be adjusted or wear out.

Standard Cutting Edge
The standard, 6” high-carbon steel cutting edge provides increased wear resistance and a clean scrape.

PERFECT FOR CONDITIONS THAT AREN’T.

This blade comes in four different sizes, so no matter what you’re driving there’s an HD2™ snowplow that’ll work for you. It’s also strong—10 vertical ribs strong—which means even the toughest storms can’t stop you. Combined with reliable and fast hydraulics, this plow moves a lot of snow and also raises the bar.

High-Strength Steel Moldboard
Rugged 29”-tall, powder coated, high-strength steel moldboard.

Structural Reinforcement
The rugged HD2™ snowplow blade is reinforced with 10 vertical ribs welded into a rigid framework, which provides additional structural support and torsional strength, even under heavy loads.

Standard Cutting Edge
Each FISHER® HD2 snowplow comes standard with a 1/2” x 6” high-carbon steel cutting edge* to provide increased wear resistance and a clean scrape.

MOLDBOARD AVAILABILITY
Powder coated steel: 7’, 6”, 8’, 8’ 6” and 9’ widths

Trip-Edge Design
The industry-leading FISHER trip-edge design protects you and your equipment. Only the bottom edge trips, so the blade stays upright and plowed snow stays in front of the blade. Compression-type springs never need to be adjusted or wear out.

*7’ 6” HD2 model comes standard with a 3/8” steel cutting edge
Rugged Moldboard
The SD Series powder coated moldboard is 26" high and built with 14-gauge steel for a great balance of performance and versatility.

Structural Reinforcement
The SD Series snowplow has eight vertical ribs and a torsion tube ensuring you have the durability you need when the going gets tough.

Standard Poly Cutting Edge
The wear-resistant poly cutting edge helps improve cutting power, absorb plowing shock and increase scraping ability without adding excess weight.

Attack Angle
The aggressive, 75-degree attack angle provides enhanced scraping and back dragging, making it ideal for asphalt or paved surfaces, and for scraping up ice and hard packed snow.

Trip-Edge Design
The industry-leading FISHER® trip-edge design protects you and your equipment. Only the bottom edge trips, so the blade stays upright and plowed snow stays in front of the blade. Compression-type springs never need to be adjusted or wear out.

ANY WORKLOAD. ANY TIME.

Built for half-ton trucks and ready for anything, the HT Series™ snowplow means business. Engineered with all the features that make FISHER® snowplows the choice of the pros, you and your half-ton will be able to tackle any challenge and quickly move on to the next one.

Plow Blade Construction
Ideally suited for half-ton vehicles, the 7’ 6”, powder coated, steel moldboard is 27” tall, offering you a full-size plow for personal use.

Attack Angle
The aggressive, 75-degree attack angle provides enhanced scraping and back dragging, making it ideal for asphalt or paved surfaces, and for scraping up ice and hard packed snow.

Scrape Lock
The Scrape Lock feature hydraulically locks the blade down for cleaner scraping and back dragging performance.

Structural Reinforcement
Six vertical ribs and a full-length horizontal tube provide extra stability and strength to the core of the plow blade.

Trip-Edge Design
The industry-leading FISHER® trip-edge design protects you and your equipment. Only the bottom edge trips, so the blade stays upright and plowed snow stays in front of the blade. Compression-type springs never need to be adjusted or wear out.

MOLDBOARD AVAILABILITY

PLOW YOUR PROPERTY LIKE A PRO.

The FISHER® HS compact snowplow is a full-featured snowplow that’s easy to attach and easy to operate, so you can clear your property how you want and when you want from the comfort of your own vehicle. Designed specifically for mid-size pickup trucks and SUVs, the FISHER HS compact plow will have you rigged and ready for whatever winter throws your way.

High-Strength Construction
The 23½”-tall, powder coated moldboard is built with high-strength, low alloy steel that is stronger and lighter than conventional steel.

Structural Reinforcement
Six vertical ribs deliver exceptional torsional strength to eliminate blade twisting.

Formed Base Channel
A formed base channel provides extra support along the bottom of the plow blade.

Full-Trip Moldboard
The HS compact snowplow features full-blade trip. This design incorporates two trip springs, allowing the blade to trip forward when encountering hidden obstacles, protecting your snowplow and vehicle from jarring damage.

Ground Clearance
When the plow is not in use, quickly maximize vehicle ground clearance with the removable receiver brackets. No tools required.

Standard Cutting Edge
The standard, 5”, high-carbon steel cutting edge provides increased wear resistance and a clean scrape.

Easy On / Easy Off
Simple mechanical attaching system makes attaching and detaching your plow quick and easy.

Scrape Lock
The Scrape Lock feature hydraulically locks the blade down for cleaner scraping and back dragging performance.

FLEX YOUR FLEET’S MUSCLE.

Even the biggest storms are no match for the FISHER® STORM BOXX™ pusher plows. Attach a pusher plow to your skid-steer, backhoe or wheel loader and move massive amounts of snow, fast. The STORM BOXX plows are available in a variety of widths and is built to last so you can count on it year after year.

Structural Steel Channel
A structural steel channel across the entire blade is internally-lined with stiffener ribs for structural integrity and bucket-impact strength.

Side-Support Posts
Side-support posts provide protection against bending from curbs or other accidental impact.

Quick Change Attachment System
Fully formed gussets support both the upper and lower posts, which connect directly with the interal stiffener ribs for strength and support.

Standard Cutting Edge and Shoes
The premium rubber cutting edge is adjustable and reversible to maximize use and abrasion-resistant, steel wear shoes on the sideplates enhance the life of the cutting edge.

For Skid-Steers
Available in 8’ and 10’ widths, the STORM BOXX pusher plow for skid-steers moves up to 7 and 9 cubic yards of snow.

For Backhoes
Available in 10’ and 12’ widths, the STORM BOXX pusher plow for backhoes moves up to 9 and 11 cubic yards of snow.

For Wheel Loaders
Available in 12’, 14’ and 16’ widths, the STORM BOXX pusher plow for wheel loaders moves up to 15, 18 and 21 cubic yards of snow.

UPGRADE YOUR EARNING POTENTIAL.

Put your skid-steer to work with an XRS™, HDX™ or HD2™ snowplow. Built to handle the extra demands of skid-steer operation, the XRS, HDX and HD2 plows offer fast and easy hook up, adding versatility to your snow-clearing arsenal. Clear large parking lots, maneuver between cars and parking islands, and get the most out of your skid-steer this winter.

Onboard Hydraulics
Skid-steer plows are quick to install and easy to operate. Leverage the skid-steer’s onboard hydraulic system for powerful, efficient operation. Relief valves help protect the operator and the equipment when encountering hidden obstacles.

Attachment
The Universal skid-steer mount provides a number of application options. With 6 degrees of total side-to-side oscillation, the blade can easily follow the contours of the pavement for a cleaner scrape.

REDEFINE UTILITY.

Get more use out of your utility vehicle with the FISHER® TRAILBLAZER™ line of UTV plows. These plows are engineered to fit a wide variety of UTVs and to handle the same demands as our commercial plows. Constructed from high-strength, low alloy steel, both models feature an easy-on/easy-off UTV mounting system and removable receiver brackets for exceptional ground clearance. TRAILBLAZER UTV plows feature Scrape Lock for clean scraping and back dragging.

STRAIGHT BLADE

Blade Construction
The 6'-wide, 14-gauge, powder coated steel moldboard features four vertical ribs for strength and durability.

Standard Cutting Edge
The standard, 5”, high-carbon steel cutting edge provides increased wear resistance and a clean scrape.

Full-Trip Moldboard
Two heavy-duty coil springs protect your plow and UTV by allowing the whole blade to trip when striking obstacles.

ACCESSORIES

Rubber Deflectors | Poly Cutting Edges | Shoe Kits
Light Bar Kit | Curb Wear Kit (straight blade only)
Wing Extensions (v-plow only) | Blade Stop Kit (v-plow only)

V-POLOW BLADE

Blade Construction
Featuring a 6'-wide, 14-gauge powder coated steel, flared moldboard, the TRAILBLAZER UTV v-plow easily adapts to handle 5' sidewalks and gates in angle, scoop or V mode.

Standard Cutting Edge
The standard, 5”, high-carbon steel cutting edge provides increased wear resistance and a clean scrape.

Structural Reinforcement
The TRAILBLAZER v-plow blade is reinforced with six vertical ribs and features the strength of our proven T-frame design.

Trip-Edge Design
The industry-leading FISHER trip-edge design protects you and your equipment. Only the bottom edge trips, so the blade stays upright and plowed snow stays in front of the blade. Compression-type springs never need to be adjusted or wear out.

Standard InstaLock Double-Acting Cylinders
InstaLock double-acting cylinders lock the wings together to use the v-plow in straight blade mode with single button control. Double-acting cylinders also hold the wings firmly in place for clean, efficient back dragging.

Adjustable Speed and Down Pressure
Adjustable broom-revolution speed and adjustable down pressure allow you to adapt to any condition.

Floating, Pivoting Broom Head
Floating, pivoting broom head gives you five angle settings to adjust the trajectory of the snow.

Plow Blade
Quick-attach plow blade features wheels and floating design to move heavy or deep snow.

Seven-Position Height Adjustment
Seven-position handlebar height adjustment for operator comfort.

ACCESSORIES

Debris Collector | Multi-Purpose Bristles

THE NEXT STEP IN SIDEWALKS.

Sidewalks are one of the biggest reasons you’ll get called back to a job. The FISHER® RB-400 walk-behind rotary broom helps get walkways cleaner by scraping and sweeping snow all the way down to the surface. It’s also perfect for areas that are tight up to buildings, curbs or edging. Whether it’s just a light dusting, heavy wet snow or compacted snow that was walked on or driven on before you got to the job, the walk-behind rotary broom will take care of the situation quickly and leave you with a clean that is unmatched.

Adjustable Speed and Down Pressure
Adjustable broom-revolution speed and adjustable down pressure allow you to adapt to any condition.

Floating, Pivoting Broom Head
Floating, pivoting broom head gives you five angle settings to adjust the trajectory of the snow.

Plow Blade
Quick-attach plow blade features wheels and floating design to move heavy or deep snow.

Seven-Position Height Adjustment
Seven-position handlebar height adjustment for operator comfort.

Active-Assist Steering
Active-assist steering and freewheel design allow for 360-degree turning.

Brush-Head Design
Unique brush-head design features angled outer bristles to clean-up close to buildings, curbs and edging.

ACCESSORIES

Debris Collector | Multi-Purpose Bristles
FISHER® Genuine Factory-Tough accessories are manufactured with the FISHER quality you’ve come to expect. They’re designed to enhance your plow’s performance and longevity while also allowing you to customize your plow to meet the specific demands of each unique account.

FISHER Factory Original Paint
Genuine Factory-Tough paint in black, silver, and FISHER yellow provides durable coverage and is mixed to match your original equipment. Available in spray cans, quarts or gallons.

Hydraulic Fluid
FISHER EZ Flow high-performance hydraulic fluid is specifically formulated to provide better viscosity in all temperatures for optimal performance in severe conditions. Available in 1-quart, 1-gallon and 55-gallon sizes.

Emergency Parts Kit – Minute Mount® 2
Be prepared! This emergency parts kit is designed specifically for the new FLEET FLEX system snowplows. All kits contain high-volume FISHER® Genuine Factory-Tough service parts needed for most emergency repairs.

FLEX ARM™ Kit
Quick-release, flexible control mount adjusts into any position. Magnetic base for easy removal with no mounting holes in your dash.

Commercial Blade Guide Kits
Commercial blade guides are highly visible fluorescent orange, enhanced with reflective tape, featuring the FISHER logo, and available in 24” or 36” lengths.

Debris Collector
The debris collector easily attaches to the front of your RB-400 rotary broom during the off season with these multi-purpose bristles for sweeping debris on a wide variety of surfaces and applications.

Shoe Kits
Designed to increase the durability and life span of cutting edges and base angles by raising the blade for use on gravel and uneven surfaces. Kits vary by plow model.

Commercial Blade Guide Kits
Commercial blade guides are highly visible fluorescent orange, enhanced with reflective tape, featuring the FISHER logo, and available in 24” or 36” lengths.

SnoFoil® Steel and Poly Deflectors
The curved, rigid design of the SnoFoil deflector provides excellent snow-rolling performance, ensuring that you have visibility while plowing regardless of the conditions.

Plow Parka
Heavy-duty, FISHER-branded, nylon cover protects electrical and hydraulic systems.

Light Bar Kit
Light up the path in front of your TRAILBLAZER™ UTV plows with this light bar accessory. These LED headlamps help brighten your way.

Multi-Purpose Bristles
Replace the snow bristles on the RB-400 rotary broom during the off season with these multi-purpose bristles for sweeping debris on a wide variety of surfaces and applications.

Back Drag Edges
Made from 1/4” abrasion-resistant steel and custom fit to your blade, this back drag edge will improve results by providing a clean scrape while back dragging.

Cutting Edges
Increase wear resistance and restore your worn base angle to the proper geometry. Steel, rubber, poly and carbide options available depending on plow model.

Wing Extensions
Expand the carrying capacity of your XV2™ (shown), XtremeV™, HD2™, HDX™ and TRAILBLAZER™ UTV v-plow by adding a pair of genuine FISHER wing extensions.

Curb Wear Kits
Constructed of abrasion-resistant material and designed to fit tight to the blade, these curb guards will allow you to plow along curbs, without damaging your blade. Kits vary by plow model.

SnoFoil® Steel and Poly Deflectors
The curved, rigid design of the SnoFoil deflector provides excellent snow-rolling performance, ensuring that you have visibility while plowing regardless of the conditions.

Steel Deflector
Extend the height of your blade and help keep snow off the windshield without affecting your ability to stack snow.

Rubber Deflectors – 10” and 18”
Made from 2-ply, heavy-duty rubber, this easy-to-install rubber deflector kit will provide improved visibility by deflecting snow forward instead of on your windshield.

Consult your local FISHER Dealer or fisherplows.com for more information regarding accessory compatibility and availability.
